

# CPV

Advanced Technology Promise  
Becomes Energy Solution

WIREC '08

Washington, DC, March 4, 2008

# About the Consortium

---

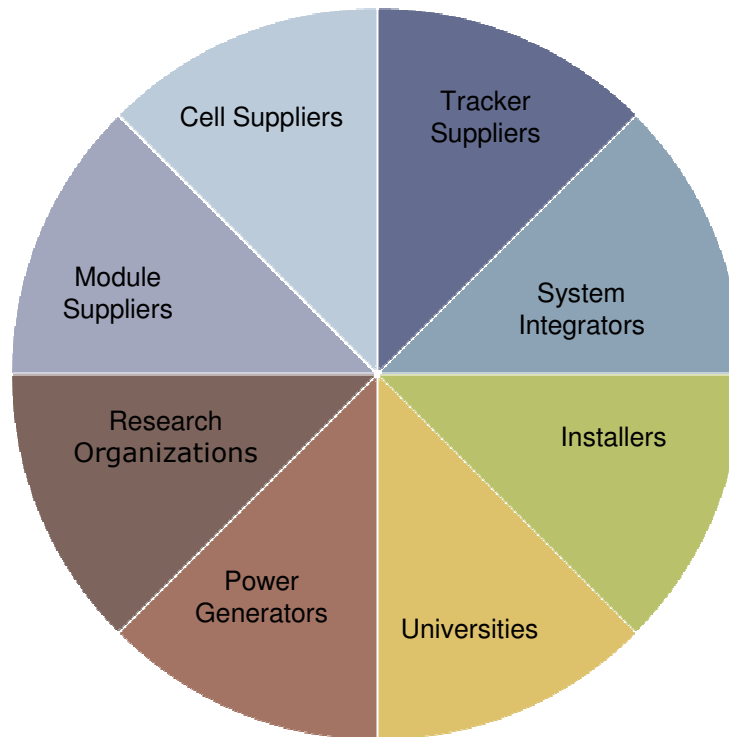

A Global Industry Consortium  
Supporting the Development and  
Optimizing the Long-term  
Success of CPV as a Mainstream  
Source of Renewable Energy

# Membership Across Industry

Membership Encompasses All Types of Stakeholders with a Vested Interest in the Success of the Industry

# Consortium Goals

---

- ▶ Educating audiences on the CPV industry and its ability to improve quality of life and provide low cost, reliable energy
- ▶ Creating confidence in performance claims, specifications, and guarantees of CPV products
- ▶ Assuring there is a coordinated infrastructure to support rapid market growth and technology deployment
- ▶ Driving standards for safety of systems and installations, and adherence to green deployment practices
- ▶ Providing a single industry voice in addressing critical energy issues
- ▶ Defining future requirements for education and research in the academic community

# CPV Consortium Commitment

- ▶ Deployment of Technology that Meets its Promises
- ▶ A Support Infrastructure Covering all Aspects for Successful Industry Development
- ▶ Safe, Dependable System Deployments
- ▶ Clean Energy with the Lowest Carbon Footprint of Any Renewable

## Steps...

---

- ▶ Establishment of structures, dues, etc.
- ▶ Define working groups
- ▶ May Launch at IEEE Photovoltaics, San Diego
- ▶ First Membership Meeting in September, European Photovoltaics Conference, Valencia

## To get on the list...
